# ARTISAN SLATE PREMIER SERIES

Interlocking Paving Stones

Artisan Slate Premier Series is designed to provide a bold paver solution with the highest of flexibility in design patterns. Highlighted by a large 12"x12" paver, each stone features subtle textures that provide the look of real stone combined with the strength and durability of an interlocking paving stone.

57% 12x12, 28% 6x12 & 15% 6x6

Diamond  
50% 12x12, 25% 6x12 & 25% 6x6

## Typical Paver Installation\*

1. Excavate unsuitable, unstable or unconsolidated subgrade material and compact the area which has been cleared. Backfill and level with dense graded aggregate suitable for base material (typically 3" - 6" for pedestrian/light vehicular traffic and 8" - 10" for driveway applications), or as otherwise directed by site engineer/architect/landscape architect.
2. Install edge restraint using concrete curb, concrete toe or edging.
3. Place bedding course of sharp normal weight screening or concrete sand to a uniform depth of approximately 1" leveled to grade.
4. Install Basalite Pavers hand tight with joints approximately 1/8". Where required, cut stones with an approved cutter to fit accurately.
5. Tamp pavers with mechanical vibrator uniformly level true to grade and free of movement.
6. Fill voids in joints by sweeping, dry, fine, sharp sand over pavers.

\*The installation instructions and illustrations shown are a basic overview of paver installation methods. Because of the variety of applications, please refer to the Basalite® installation guide or visit us online at [basalite.com](http://basalite.com).
