# Copings • Caps • Treads

McNear Copings, Caps, and Treads are part of a matching suite of products, including clay pavers, thin brick, and full-size bricks. Please consult our Web site at [www.mcnear.com](http://www.mcnear.com) or our other brick brochures to learn more about our full range of products.

## METRO

Clean, sharp lines define this profile. With its defined edge and low overhang, it meets all ADA requirements for a stair tread.

## FRANCISCAN

This streamlined shape is ideally suited for pool copings, providing an edge that can be safely and easily gripped by big or little hands, but without unsightly bulges. The Franciscan also makes a beautiful, safe stair tread, and as a wall cap it can be installed with either side up.

Franciscan

Corinthian

Half-Round

## CORINTHIAN

This Ogee-based profile adds elegant detail to our pool copings, wall caps, or stair treads. A Corinthian wall cap can be installed with either side up, producing two very different looks; and as a stair tread, it has enough of a corner to make a safe, comfortable step.

## HALF-ROUND

This traditional shape is very popular for wall caps and pool copings thanks to its smooth, rounded profile.

Metro

Inverted Franciscan

Inverted Corinthian

## COLORS

McNear Brick & Block manufactures a wide range of brick colors and styles, and we generally stock matching Copings, Caps, and Treads for our most popular products, some of which are shown below. Other items, including custom shapes and colors, can be special-ordered from the factory.
